APPG Meeting 23 February 2022 Chat Stream

| time | Name | Message |
|----------|------------------------------|---|
| 00:37:06 | Phil Royal: | all speaker slides will be shared after the meeting. Please raise your hand or message here if you would like to ask a question |
| 00:39:16 | Paul Pearcy - British Glass: | I have a point to add on carbon leakage from the UK glass industry |
| 00:49:05 | kliddle: | what measures would you implement to make the UK ETS more competitive? |
| 00:51:33 | Paul Pearcy - British Glass: | link with the EU ETS would help |
| 00:56:26 | Arjan Geveke: | UK gas storage currently stands at around 56% of max capacity today. Much higher than normal for this time of year. |
| 00:58:17 | AndrewLarge: | May I ask a question about Green Industrial Strategy and how we might collectively |
| 00:58:22 | Kayla: | what is the appetite for the chemical and glass industries to install onsite renewable energy generation combined with hydrogen energy storage to create a more secure energy supply? |
| 00:59:48 | Lisa Waters: | On-site generation has two risks - BEIS is reviewing the licence exemption regime and Ofgem's move to residual charges based on capacity makes it less economic. |
| 01:00:20 | Paul Pearcy - British Glass: | the UK government made 4.5 billion in 2021 on sales of UK ETS credits |
| 01:01:57 | Edward Thompson: | The levies on electricity are blocking the decarbonisation of heating in the UK. |
| 01:02:39 | Edward Thompson: | Is it right to be encouraging burning gas when gas is largely imported? |
| 01:14:33 | Lisa Waters: | Yes balancing costs - £20m per day to manage constraints - this is not the fault of customers! |
| 01:15:38 | Arjan Geveke: | Am working for government so not able to access all facilities of zoom. |
| 01:15:48 | Arjan Geveke: | Security reasons. |
